

ADVANTAGES FOR PROVIDERS **MYCHART PATIENT PORTAL**

ENGAGING PATIENTS FOR BETTER CARE

The patient portal MyChart can help your patients stay connected, improve communication with your practice, and help them gain insight into their overall health.

BENEFITS FOR YOU AND YOUR PRACTICE

- **Efficient Patient Communication:** Your patients can use MyChart to accomplish tasks that would normally require a phone call, or multiple phone calls.
- **Streamlined Tasks:** MyChart allows registration forms to be completed electronically prior to appointment check-in, keeping front-desk work running smoothly.
- **Better Patient-Physician Relationships:** MyChart provides your patients with 24-hour access to your practice, making the patient-physician relationship closer than ever.
- **Improved Clinical Outcomes:** MyChart makes requesting prescription refills and referrals easier, and convenience leads to greater compliance.
- **Collect More Patient Payments:** MyChart makes paying medical bills accessible and simple for all patients, positioning your practice to collect more on patient balances.
